- Good understanding of **HTTP methods, REST full Architecture**.
- Deployed the project using **GIT version control system**.
- Has the proficiency of working on windows operating systems.
- Has good knowledge on **scripting** languages.
- An effective communicator with excellent interpersonal and **problem-solving skills** towards the customer.

### TECHNICAL SKILLS

- **Coding Languages:**
  - Front-End Development: - HTML, CSS, Bootstrap, JavaScript
  - Back-End Development: - Python Programming
- **Framework:** Django, MVT
- **Operating Systems:** Windows
- **Tools:** JIRA, Postman, Git, GitHub
- **Databases:** MySQL, SQL

## PROJECTS

### 1. Project Name: E-Commerce Management

- **Description:** The E-commerce Management System project aims to develop a comprehensive online platform for managing e-commerce operations, including product management, order processing, inventory control, and customer relationship management. Built using Python programming language and Django web framework, the system provides a scalable and efficient solution for businesses to establish and operate their online stores.
- **Roles and Responsibilities:**
  - Designed and implemented user-friendly e-commerce websites.
  - Developed front-end and back-end functionalities for seamless customer experience.
  - Ensured website responsiveness and optimized performance.
  - Implemented secure payment gateways for seamless and secure online transactions.
  - Utilized version control systems (e.g., Git) to manage and track changes in the codebase.
  - Troubleshoot coding issues and bugs. Developing SEO/PPC Strategy/Marketing Plans.

### 2. Project Name: Zoomin Photobook Software

- **Description:** Instead of printing your photos and then making an album/scrapbook our Zoom in's photo album online allows you to directly upload your pictures, design the layout, add captions and print them into a beautiful custom photo album full of bright pictures.
- **Roles and Responsibilities:**
  - Developing the user interface of the software using Python frameworks like Django this involves creating the layout, design, and functionality of the application's frontend.
  - Implementing the backend logic and functionality of the software, including user authentication, data storage and retrieval.
  - Implementing features related to image processing, such as uploading images, resizing, cropping, applying filters, and arranging them in the photo book layout.
  - Designing and implementing the database schema, handling database operations, and ensuring data integrity

## SKILLS

- |                      |                                      |
|----------------------|--------------------------------------|
| ▪ Project Management | ▪ Critical Thinking                  |
| ▪ Good Communication | ▪ Emotional Intelligence             |
| ▪ Problem Solving    | ▪ Software and application knowledge |
| ▪ Team Work          | ▪ Administrative                     |

## EDUCATION

- **Certification Course:** Python full stack development in Perfect IT Solution
- **Diploma:** Completed in **Computer Branch** from **MSBTE** in year **2023**

## PERSONAL DETAILS

**Date of Birth:** 18/6/2004

**Marital Status:** Un-married

**Languages:** English, Hindi, Marathi

**Strengths:** Positive attitude, Effective Presentation, Management
