VOLUNTEER EXPERIENCE

Collaborated with an NGO Relief India Trust for a social cause (2021)

NSS(National Service Scheme) Role - Volunteer - Human Rights

Work Experience

IT Networkz (Web Developer) (12/2020 - 12/2020)
Gained hands-on developing, implementing, and maintaining **internal web applications** and Performed automated & **manual tests** to ensure the software created by developers is up to date and working properly(HTML, CSS, PHP, SQL)

Fitmat pvt ltd(Full Stack Web Developer) (07/2022 - 11/2022)
As a full-stack developer, I specialize in a diverse range of technologies including Java, C, C++, Flutter, Dart, Firebase, MySQL, HTML, and CSS. My role involves designing and implementing both front-end interfaces and back-end systems, ensuring seamless integration and optimal performance for web and mobile applications. I collaborate closely with teams to deliver robust solutions that meet client requirements and enhance user experiences through iterative development and continuous improvement processes..

AmberSpark Technology LLP(Software Developer) (23/2023)
As a As a software developer, my role encompasses a diverse array of responsibilities and technical expertise. I specialize in programming languages such as JavaScript, Java, and .NET, using them to design and develop innovative software solutions. My proficiency extends to database management with SQL, automating tasks through PowerShell, and crafting insightful data visualizations using Power BI. I excel in integrating systems through APIs and have hands-on experience with Zendesk for efficient ticket management. Beyond technical skills, I thrive in team environments, overseeing projects from inception to deployment. My role includes coordinating gathering meetings, ensuring requirements are met, and ultimately, executing seamless software deployments that meet both user needs and organizational goals.
